

E-INVOICING AND E-COMPLIANCE FOR SAP

Compliant e-invoicing, built into your SAP.

eDocSuite turns the invoices you already create in SAP into compliant e-invoices, validates and signs them, and delivers them through Peppol or national platforms. Your SAP core stays untouched.

BEYOND E-INVOICING

- 01 **E-Invoicing** **CORE**
- 02 **E-Delivery** (e-waybill)
- 03 **SAF-T**
- 04 **e-Ledger**

0

changes to your SAP core.
Runs in its own namespace.

1

cockpit for every country,
legal entity and document.

Fast setup

Installs as an SAP add-on and
works with your existing SAP output.

EIGHT REASONS SAP TEAMS CHOOSE EDOCSUITE

Designed for how SAP actually works.

Own namespace

Independent architecture in its own namespace. No changes to the SAP core, safe across upgrades.

IDoc + output type

Data flows through standard IDocs, or processing is triggered directly by SAP output types.

Fiori & CDS views

Fast, role-based Fiori apps on CDS views. Familiar for SAP users from day one.

Global compliance

Multi-country support through Peppol and national platforms, managed in one place.

XML / HTML preview

Check every invoice in XML and HTML before it is sent and catch errors early.

Automation & live status

Automated outbound processing with real-time status for every document.

Invoice verification

Incoming invoice cockpit with MIRO integration for faster, cleaner posting.

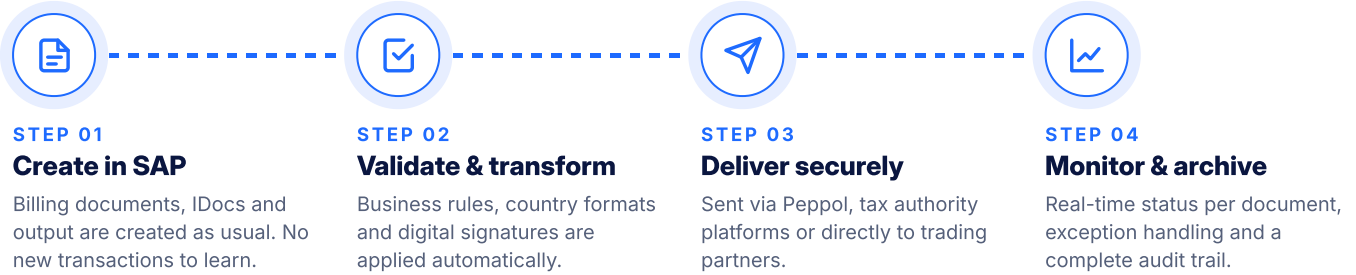

VIM / DMS integration

Works with OpenText VIM and document management systems for high volumes.

HOW IT WORKS

Your users keep working in SAP. eDocSuite does the rest.

PRODUCT EXPERIENCE

One cockpit for every country.

See failed documents, pending approvals and delivery status across all company codes at a glance, then filter by country, partner or process.

Failed documents

See and filter every rejected document across countries.

Waiting approvals

Find documents pending approval and act faster.

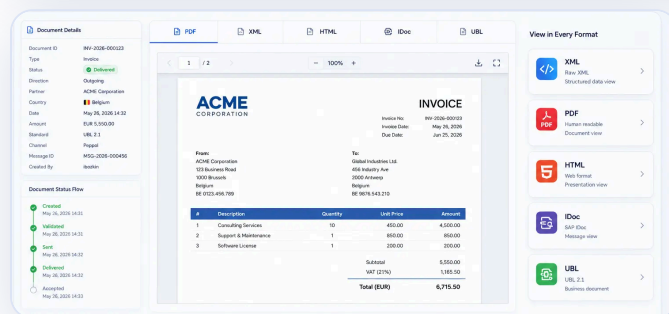

Delivery status

Track each document across networks and channels in real time.

Country filters

Drill down by country, company code or partner.

Every version, every format

Open any document as PDF, XML, HTML, UBL or SAP IDoc, with its full status history.

Executive analytics

Volumes, error types and compliance rates by country, turned into clear KPIs for finance leaders.

SAP, SAP S/4HANA and SAP Fiori are trademarks or registered trademarks of SAP SE in Germany and other countries.
